Nawel AMARA

Final-Year Software Engineering Student | Seeking PFE Internship

Final-year Software Engineering student specializing in full-stack development, database design, and modern web technologies. Experienced in integrating backend and frontend systems through hands-on projects and internships. Passionate about building efficient, scalable, and user-focused applications. Highly motivated to contribute to innovative development teams while growing technical and professional expertise.

Education

National Engineering Degree in Software Engineering

EPI-international multidisciplinary school , Sousse From September 2023 to 2026

Applied Bachelor's Degree in Computer Technologies

Higher Institute of Technological Studies of Kelibia, Kelibia From 2020 to 2023

High School Diploma in Mathematics

Mohamed Boudhina High School, Hammamet Nabeul

From September 2019 to June 2020

Experience

Summer Internship – Experience Module Integration (E-Tourism Platform)

DotCom, Nabeul From June 2025 to September 2025

- Successfully **integrated the Experience Module** into the company's international e-tourism platform.
- Developed and enhanced **backend functionalities** for managing experiences, reservations, and availability.
- Designed and maintained **PostgreSQL JSONB data models** with advanced constraints for data consistency.
- Contributed to the **Angular frontend**, improving user interactions for search, filters, participant selection, and reservations.
- Gained hands-on experience in **remote collaboration, SSH/VM deployment, and GitHub version control**.

MERN Quiz Generator (PFA Academic Project)

EPI Digital School, soussse From March 2025 to May 2025

- Designed and developed a quiz-generation web app using the MERN stack.
- Implemented role-based access for **Admin, Teacher, and Student** users.
- Built features for quiz creation, editing, and management with real-time scoring and feedback.
- Developed dynamic question types (single/multiple choice) with flexible correct-answer logic.
- Integrated responsive React components and RESTful APIs with Node.js and Express.
- Used MongoDB for data storage and JWT for secure user authentication.

Social Media Specialist

Google Developer Groups GDG EPI, Sousse, Tunisia Since 2025

- Managed GDG Sousse EPI's social media across platforms, created event content and visuals, promoted workshops and hackathons, and boosted community engagement through interactive campaigns.

Final-Year Project – Microsoft Dynamics 365 ERP Integration

B2M-IT, Nabeul From February 2023 to June 2023

- Developed a **custom timesheet module** to streamline employee tracking.
- Designed a **project management module** and **time-tracking app** for company workflows.
- Integrated **BI dashboards** and **ML models** to support better decision-making.
- Learned **AL programming language** for ERP extensions.

Internship – Advanced Training

Hammamet Valley Hub, Hammamet From July 2022 to August 2022

- Developed a complete **e-commerce website** using **Symfony + MySQL**.
- Gained hands-on experience in database management and web development.

Internship – Introductory Training

Tunisian Post, Manaret el Hammamet From February 2021 to April 2021

- Performed **hardware troubleshooting and system maintenance**.
- Assisted in **CRM system usage and web technology support**.
